

PRESS RELEASE:

Loud Group turns up the volume in Harwell

Loud Group, the marketing, design and communication company based at Milton Park, have expanded their Oxfordshire offices by moving to Cherry Barns in the village of Harwell.

Loud Group, which began in 1992, is a rapidly expanding PR company with offices in London and Oxfordshire. Cherry Barns is a thatched Grade II* office conversion in the centre of Harwell, which was refurbished in 2008 by the owners, Fellside Estates.

“We were looking for an inspirational working environment, but Cherry Barns just exceeded our expectations” comments Joanne Bunting of Loud Group. “The architecture which originates from the thirteenth century is fabulous, and the landlords have married this with new technology for essential data communication and lighting.”

Meeson Williams were the letting agents for Fellside Estates.
